EDUCATION

BSC Hons. in Computer Science

May 2022 - Present

Faculty of Science, University of Peradeniya

- Mathematics, Computer Science & Statistics

Primary & Secondary Education

May 2006 - Dec 2020

Dharmasoka College, Ambalngoda

WORK EXPERIENCE

People's Bank Regional Office ,Nugegoda

Jan 2021 - May 2021

Experience in the Account Opening Department responsible for customer onboarding, and ensuring compliance with banking regulations.

DARAZ Headquarters

Oct 2023 - Dec 2023

Served in the Governance Section at Daraz Headquarters, with a key focus on improving platform structure and consistency. Played an active role in Category Tree Mapping for Daraz Bangladesh and Daraz Pakistan, ensuring standardized product classification and alignment across regional marketplaces.

PROJECTS

Project_Sportify

Sports Management System

React, Tailwind CSS, TypeScript, Spring Boot, MySQL, BCrypt

- Full-stack web application for comprehensive sports management including player profiles, facility bookings, live score tracking, and merchandise purchasing
- Enables players, sports organizations and teams to streamline operations on a single platform

sincerely-sri-lankan

React, TypeScript, Vite, Tailwind CSS, shadcn-ui

Cultural Web Application

- Interactive platform showcasing Sri Lankan culture and heritage with modern UI components

Tea Leaf Disease Classifier

Python, Jupyter Notebook, VGG16, ResNet50, Transfer Learning

- Deep learning classification system achieving 91.07% accuracy in identifying tea leaf diseases using pre-trained neural networks
- Leverages transfer learning with VGG16 and ResNet50 architectures to enable rapid disease diagnosis and support agricultural decision-making

Secure E-Procurement System

Python, JavaScript, React, HTML, CSS

- Production-grade cryptographic platform implementing advanced security protocols for government procurement workflows
- Utilizes ECDSA, ECIES, Shamir Secret Sharing, and hash-chain ledger verification to ensure secure transaction integrity and compliance

Smart Medical Delivery Drone (Team Leader)

Arduino, C++, TEC Peltier Cooling, GSM Module, Ultrasonic & Rain Sensors, 3D CAD, 3D Printing

- Designed and developed a custom Arduino-based drone system for autonomous medical sample transport with real-time temperature control
- Integrated TEC Peltier cooling unit, environmental sensors for rain/obstacle detection, and emergency landing capabilities
- Implemented mobile network-based data transmission via GSM module with fully custom 3D-printed drone frame

AIESEC in Kandy

Official website of AIESEC in University of Peradeniya

JavaScript, CSS

- Lightweight and responsive organizational website for AIESEC in Kandy chapter

asl-finance-hub (ongoing)

TypeScript, React, PostgreSQL, PLpgSQL

Financial Management Dashboard

- Full-stack financial tracking and management system with database-driven analytics and reporting

led-lifespan-estimator

Python

- Predictive modeling system for estimating LED component longevity and degradation patterns
- Analyzes performance metrics to optimize hardware lifecycle planning and maintenance scheduling

VOLUNTEER WORK AND AFFILIATIONS

Developer – AIESEC in Sri Lanka

- Engineered and maintained national web platforms and digital initiatives, leveraging technical expertise to support organizational scalability and streamline data management for AIESEC operations in Sri Lanka.

Volunteer - AIESEC in University of Peradeniya

- Local Committee Vice President for Incoming Global Talent B2B & Value Delivery for the term 25.26, leading strategic partnerships and driving impactful cross-cultural exchange programs.
- Organizing Committee Vice President for Trailblazers 2024, a flagship youth leadership conference empowering university students through experiential learning.

Volunteer – STEMUp Educational Foundation

- Actively engaged in initiatives focused on enhancing IT and IoT literacy among children in rural communities.
- Conducted interactive sessions on basic programming and Internet of Things (IoT), helping bridge the digital divide and inspire future innovators from underserved regions.

EXTRA CURRICULAR

Team Member - Basketball Team of Dharmasoka College , Ambalangoda

2015 to 2019

Team Member - Basketball Team of the University of Peradeniya

2022 to 2025
